

ALLENDALE ELEMENTARY SCHOOL

PLANNER AGREEMENT

Student's Name: _____ Grade: _____ Teacher: _____

I received the following materials:

Student planner including the Allendale Handbook and the District Code of Conduct

Students are responsible for their learning. Responsible learning behavior is a part of academic success. Parent-school communication is also important for student success.

As a part of the Allendale School Improvement Plan, each student is issued a planner this year. The planner is a tool for developing responsible learning behavior and a vehicle for parent-school communication.

Our goal is to increase learning responsibility skills in a developmental approach from grades 2 through 5. Our goal includes parents as partners in this skill development.

I have been informed about the student planner. I understand that my student is responsible for recording unfinished class work and homework in this planner daily. Other information may also be recorded by teacher request.

I know that it is important to review this planner with my student on a daily basis.

I know that I must sign the book at least once a week, or more often if required by the teacher.

I know that one planner is furnished. If a student loses the planner, a replacement will cost **\$5.00**.
